To Whom it May Concern:

RE: Grandview Elementary

Ladies and Gentlemen,

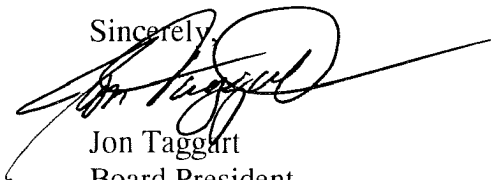

I just want to take a moment to tell you a little about the Grandview ISD Elementary School that we will be moving into this next January. In the beginning we interviewed several architectural firms for the job and ultimately hired Huckabee Architectural and Engineering. In my opinion we made the right choice.

Our board and superintendent were both inexperienced in bond issues and new construction and design; Huckabee helped us get through the process in a very professional and, I might add, a very friendly manner. They were a pleasure to work with. I along with other board members, teachers, and administrators, were very active in the planning of our new school, this process included numerous tours of other facilities which were designed by Huckabee.

I was especially impressed with the workshops they had with our teachers and staff to get all the ideas necessary to design a facility that is exactly what we needed to provide the best education for our kids. They have also watched over our interests during the construction phase and have had a presence on the jobsite, at board meetings, and during construction meetings.

I would recommend you consider Huckabee as the architect for your upcoming project, if you have any questions or I can help, please feel free to contact me.

Sincerely,

Jon Taggart  
Board President  
Grandview ISD
