October 18, 2011

To Whom It May Concern:

It is with great confidence that I bestow upon Huckabee & Associates my highest recommendation. Our Board of Trustees completed a very thorough process to select an architectural firm to address student growth and aging and inadequate facilities. Knowing the importance of selecting the “right” firm, our Board of Trustees solicited and screened proposals, interviewed firms, and toured educational facilities that were designed by the firms. After completion of this process, the HEB ISD Board of Trustees unanimously selected Huckabee & Associates to build our new facilities.

In the spring of 2010, Huckabee assisted HEB ISD in the passage of a \$136 million bond package to provide activity centers on two high school campuses, a new Career and Technical Education Center, technology upgrades, and roofing/HVAC/paving upgrades. I cannot overstate the importance of their expertise and guidance in assisting the district with the passage of our bond election. From the inception of our partnership, we have found each and every individual with whom we have worked at Huckabee to be knowledgeable and client centered. The Principal-in-Charge and the Assistant Principal-in-Charge have worked diligently with all stakeholders in the district to bring about consensus on design plans that meet the needs of everyone concerned. This firm reflects the integrity that one looks for in any service provider. We have also found Huckabee to be diligent in working with our business department to ensure that every dollar is maximized and accounted for.

It is without reservation that I recommend Huckabee & Associates. The HEB ISD Board of Trustees and administration look forward to our continued work with this fine architectural firm.

Sincerely,

Steven A. Chapman
Deputy Superintendent
