

October 14, 2011

To Whom It May Concern,

Please allow this letter to serve as a recommendation in your decision-making process regarding a prospective architectural firm for your upcoming building program.

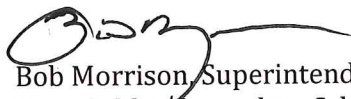

Huckabee was originally hired by Mansfield ISD in 1989, and since that time, they have successfully delivered six bond programs, 64 projects and over \$1 billion in construction costs for our school district. Time and time again, the Huckabee team has proven their ability to deliver high quality school facilities at reasonable costs that will stand the test of time and serve the needs of our school community. More importantly, our district has seen savings on our maintenance and operations side because our facilities require minimal maintenance and are energy-efficient.

Since the beginning, our district divided design services between two architectural firms, most of which you are probably considering today. Many of those firms have come and gone, but Huckabee has always remained constant. In fact, many years ago, Huckabee was hired by the district to serve as our bond program manager and has overseen all of the other firms. In 2011, we again hired Huckabee, but only Huckabee, as the architect for our upcoming bond program.

The reason Huckabee has been working in Mansfield for over 20 years is simple. Trust. We trust the firm, their employees and their proven expertise. We know that Huckabee will always do what is right for our district.

They have made a lasting, positive impact on our community, and I look forward to working with Huckabee long into the future. I do not hesitate offering my recommendation for Huckabee to any school district. Please contact me directly if you need further information.

Sincerely,

Bob Morrison, Superintendent  
Mansfield Independent School District
