Re: Letter of Gratitude

Dear Mike,

It has been a pleasure working with you and your team over the course of the last five years through a successful \$117,000,000 bond election and the implementation of the new construction and renovations made possible through these funds.

Your extensive evaluation of all our existing facilities provided the foundation for the work we promised our community members in this bond. Your prediction of scope of work needed and the costs for new additions and renovations were amazingly on target! Without this background, there is no way we would have 11 projects coming in under and/or right at budget. Our community is giving us the credit for such accurate numbers, when in fact, your evaluations gave us what we needed.

The design of the new Tucker Hall at Central High School is a true masterpiece! It is the new face of this great high school that is so loved by the citizens of San Angelo. Because of its location, every citizen will pass by and soak in its beauty. It is already an incredible source of pride as it fits right in on the banks of the Concho River that flows beside it. The renovations to all the other buildings of Central High School are maintaining the graceful design and intent of the architects from decades past.

The work at Lee Middle School is highly successful also. The new classrooms and renovations are magnificent.

We could not be more pleased with our partnership! We look forward to many more years of working with you and your team.

Warmly,

A handwritten signature in blue ink that reads "Carol A. Bonds". The signature is written in a cursive style.

Carol Ann Bonds
