

**Tarrant  
County  
College**

Office of Records Management/Construction

November 2, 2011

To Whom It May Concern:

It is our pleasure to recommend the Professional Services of Huckabee Inc. to you. Through the past years and most recently from May to August, our Facilities & Records Management teams have worked directly with Gary Rademacher AIA, of Huckabee Inc., on a special Facilities Survey project. The company offers a professional, knowledgeable staff, tremendously quick response and completion with superb professional fees. Their delivery of our requested survey data on our facilities makes Tarrant County College more than pleased with their work.

This project in particular illustrates their attention to detail and concern for quality. For this facilities survey, the Huckabee Inc. team designed the instrument from our model, secured teams of staff members and management, to our condensed timeline and criterion. The college received more than was expected and well ahead of schedule even after a belated notice to proceed. We believe that their professionalism and knowledge of architectural models and management strategies led to a successful/usable data set.

Please consider Huckabee Inc. for all your Facilities Planning Assessment needs. I recommend them and look forward to working with them again.

Sincerely,

Al Clark
