

June 2, 2011

Dear School District Administrators:

Since our inception over 25 years ago we have had the opportunity to work with many school architect's throughout the state of Texas, and without question, Huckabee Architects rank at the very top. Their team of professionals produce a set of construction documents that are clear and defined which eliminates the possibility of change orders from subcontractors. We truly have enjoyed the team relationship that Huckabee Architects promotes on each of their projects that allows input from all team members, which produces a project that is on time, under budget, and a satisfied client. We would be happy to share with you our experience with Huckabee and look forward to that opportunity.

Sincerely,

BAIRD/WILLIAMS CONSTRUCTION, LTD.

W. Blair Williams  
President
