RE: Huckabee

To Whom It May Concern:

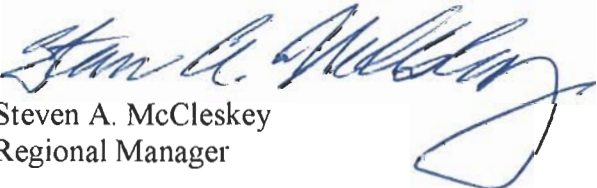

I am pleased to provide this letter of recommendation for Huckabee. Bartlett Cocke General Contractors has worked with Huckabee since 1998 on successful projects in three bond programs for two school districts. We are currently in the final completion stages of the new Negley Elementary School for the Hays Consolidated Independent School District for which Huckabee provided the design services. This project is a prototypical design that our team has previously constructed for Hays CISD.

Our successful track record together is based upon Huckabee's ability to work with us as the Construction Manager on these projects in a teamwork relationship while serving the Owner's interests. We were able to take a successful project, Tobias Elementary, and improve upon it by incorporating the lessons learned into the subsequent project, Negley, resulting in improved constructability, budget and schedule. Their flexibility and willingness to accept our input during the design stage was critical to the success of this process. We have also found that the completeness of their documents combined with their quick response and follow-up during the construction phase allows us complete the project in a timely manner with improved quality.

At all levels and in all phases, Huckabee's staff and their commitment to serving their client's interests while working closely with Bartlett Cocke has made the design and construction process easier for all involved. We look forward to working with them on many more projects in the future.

Sincerely,

Bartlett Cocke General Contractors

Steven A. McCleskey
Regional Manager
