Dear School District Administrators,

Charter Builders, Ltd. has been associated with Huckabee over the past seven years. In that time, we have come to value our relationship.

No matter what method of contract delivery is chosen by the owner, we have found the Huckabee organization to be team players through out the construction process.

Huckabee's attention to the detail and quality of their construction documents is to be applauded. A key to any successful project begins with the quality of the construction documents.

Huckabee's professionalism starts at the top and we at Charter Builders look forward to continuing the relationship that has been cultivated between the two firms.

Sincerely,

Bruce D. Helm
Executive Vice President
