Dr. Darrell G. Floyd
Superintendent

Letter of Recommendation to

Dear Committee Members:

Please accept this letter of recommendation in support of Huckabee & Associates Architects.

Stephenville ISD has used Huckabee & Associates for several projects over the years, and they have always done an exemplary job for us.

One of the projects we are most proud of is their work on our \$10 million junior high and renovations to several of our other campuses...all part of our 1998 \$20 million bond election. The new junior high was completed in 2000 and, due to the diligent design work by Huckabee & Associates, it still looks brand new today.

This architectural firm is a leader in the industry. They help teach aspiring educational administrators the ins and outs of school construction at Tarleton State University (TSU), and they were also the architects on TSU's \$30 million science building that includes a planetarium that is second to none.

In addition, I have known the Huckabee family for more than 40 years. I grew up in Andrews, Texas - where Mr. Tommy Huckabee initiated the firm decades ago. He later moved the firm's headquarters to Stephenville for a number of years, and now Chris has taken over the leadership of the firm and moved the operation to Ft. Worth. I can attest to not only the professionalism of the firm as a whole, but to the outstanding integrity of the Huckabee family as well. They know what they are doing, and they do things right.

I recommend Huckabee & Associates Architects without reservation.

If I can be of any further assistance in this matter, please feel free to contact me.

Sincerely,

Darrell G. Floyd, Ed.D.
Superintendent of Schools
Stephenville ISD
