JAMES LENAMON
High School Principal

PAUL MILLER
Junior High Principal

CHERI C. ZACHARIAS
Elementary Principal

McGregor Independent School District has just started our sixth project with Huckabee & Associates. Our relationship goes back over eight years, with the district constructing facilities as varied as sports complexes to an elementary campus. Each time the district was planning a project, we chose the Huckabee firm due to their emphasis on quality design and construction.

Our experience with Huckabee & Associates has been very positive. We have always felt that they have been attentive to our needs, and that the Huckabee staff was looking out for our best interests every step of the way. Our projects have been completed on time and under budget, giving the district confidence to pursue additional facility improvements that enhance the educational experience for our students and staff.

We have been pleased with every facet of the construction process, from planning to completion. The Huckabee staff, at every stage of construction, are professional, accessible, and knowledgeable. We really feel like we have forged a relationship with Chris Huckabee and his wonderful staff.

I recommend Huckabee & Associates to the Crowley Selection Committee as you consider important facility needs in your district. Please contact me if you have questions about our construction experiences with this excellent organization.

Sincerely,

Kevin Houchin,
Superintendent
