Letter of Recommendation
Re: Huckabee Architects

Dear Superintendent,

I am proudly writing a letter of recommendation for Huckabee Architects. I realize that there are many good architects out there. I also realize that as a superintendent that you are constantly being solicited by these firms. I have been in Prosper ISD now for three years, and the Huckabee team has done an excellent job of working with us as we begin to experience unprecedented growth for our small district.

During my short time here, Huckabee has completed expansion and renovation of our existing elementary school along with expansion and renovation of our middle school. They are currently building a new elementary school to open in August of 2005. Moreover, we recently amended their contract to include significant expansion of our high school and the construction of a second elementary school. They are also very conscientious in how they work with city officials and inspectors to ensure minimal obstacles while sharing in accountability when something unforeseen arises. In short, if they were doing anything other than an exceptional job for us, they would no longer be in Prosper ISD.

If you have any questions or need additional information, please do not hesitate to contact me at your convenience.

Sincerely,

Drew Watkins
