To whom it may Concern:

This letter is being submitted in recommendation of the architectural firm of Huckabee & Associates.

Because of the professional involvement of Huckabee & Associates, we are very near to a highly successful completion of our latest Bond supported construction program. The program included the construction of a new Middle School with the capacity of 700 students, a 5A competition gymnasium with a spectator capacity of 2200, a science wing addition and a library expansion plus extensive renovations to an existing middle school, and a new library/administrative building plus 4 classrooms to an existing elementary campus.

When we first reviewed the submitted qualifications of several architectural firms, we could easily see that the Huckabee team possessed the expertise and commitment to education that no one else could compare with. After our interview sessions, we were completely convinced that we had to have Huckabee & Associates as part of our building program team. We have not been disappointed. They listened to our needs and designed the most beautiful and functional buildings SISD has ever had.

Because of their professionalism and demonstrated expertise, it is with complete confidence and without any reservation whatsoever, that I highly recommend Huckabee & Associates for any and all of your architectural needs. With them on your team, your bond and/or construction program will be successful.

If I can answer any questions, please feel free to call me at (830) 379-0606 ext: 200.

Sincerely,

Rene S. Ramos
